Srimaddevibhagavat have also sung songs of praises on ten mukhi Rudraksha for its divine contribution in rescuing mankind from worldly sufferings, miseries, misfortunes, evil power and adverse planetary effects.

Mantra : ' Om Hreem Namah '

Ruling Planet : ' Jupiter '.

Which type of Rudraksha to wear: One should use those Rudraksha-beads which are nice, handsome, strong, big, auspicious and thorny. One should avoid those eaten by worms, broken, without thorns, and having sores.

The self-holed Rudraksha is of the best variety. But that which is holed by man's attempt, is considered to be worse. Those best Rudrakshas should be strung in white thread.

Where Available: The English name for Rudraksha tree is 'utrasum bead tree.' The trees are of medium height and the fruit on them is like a walnut, having a cover, with a Rudraksha inside. These trees are generally found in India, Nepal, Indonesia and some other countries of North Asia.
